RUSH TO PLAY!

The Resilient Urban Systems & Habitat (RUSH) Initiative

is a website of maps for everyone to figure out the risks & fixes to good health on the south island. Youth driven, open-source and scale-able, join us to map the difference we're making - the good and the not-so-awesome. Help us plot the spots that track the healing to rapid resilience in record time.

START HERE:

1) **Start with the interactive map, it's where the game lives!** <https://whatstherush.earth/app/rush-to-play>

2) Pick any square on the reverse side of this card. Each square belongs to one of four categories:

Plot, Find, Visit, Create

3) Do the action, then mark your square

How To PLOT:

- In the map legend select: **Plot that Spot** to add your mark on the map.

How to FIND:

- In the map, search your location.
- Open the legend, then toggle layers to view nearby places.

How to VISIT:

- Take yourself on a trip to visit map features.

How to CREATE:

- Find the **Good Stuff** tab to find resources. Post and share #whatstherush/or Plot your Creative Moment.

HOW TO WIN + SUBMIT:

Bingo = 4 in a row (across, down, or diagonal).

Take a clear photo of your completed card.
Upload it at the Submit button on the RUSH to Play page
(QR code on the front of bingo card.)
